

PADDY THRESHER

SALIENT FEATURES

- Efficient design helps to work at higher loads with minimum fuel requirement
- Availability of double speed option helps in rotating drum at less RPM to get output with minimal breakage and fan RPM can be increased or decreased for cleaning as per requirement
- Side positioning of elevator helps in easy lifting of material into trolley

PADDY THRESHER

Sonalika Paddy thresher helps in threshing of primarily Paddy crop along with other crops like wheat, Soyabean & other pulses. The self feeding system helps in automatic feeding with very less labour requirement. The 4 fan system helps in ideal cleaning of crops as per requirement. There is extra provision of removal of residue from a small outlet behind which helps to remove residue better. The prominent design with best features makes it divergent.

TECHNICAL SPECIFICATIONS

 Model Name	Overall Length (mm)	Overall Height (mm)	Overall Width (mm)	Output (Ton/Hr)	Weight (Kg) Approx.	Prime Mower HP
SLPTT	2880	1550	1050	1.5 to 2.5	1175	Tractor HP- 60 - 90
